

# STORE FLAMMABLES SAFELY

MAKE SAFETY  
YOUR PRIORITY IN  
STORING FLAMMABLES  
SUCH AS PETROLEUM,  
OIL, LUBRICANTS  
AND PAINTS.

YOU ARE  
AUTHORIZED STORAGE  
CABINETS UNDER CTA 50-909. FED  
LOG HAS CABINETS IN ALL SHAPES,  
SIZES, AND COLORS. BUT HERE ARE  
TWO THAT SHOULD FIT MOST  
OF YOUR NEEDS.

❑ Never exceed the maximum storage capacity of your cabinet. To determine storage capacity and the type of material you can store in your cabinet, check with your local safety office, fire department or the installation HAZMAT office.

❑ Store combustible item in one cabinet, flammable liquids in another.

❑ Cabinets used indoors **must** be kept away from areas where spark-producing tools and equipment are used. Keep them away from areas where heat, fumes and gases can build. Don't put cabinets where they will be in the way.

❑ Outdoor cabinets **must** be 50 feet from combustible structures. If possible, keep cabinets under protective cover from weather. Make sure "No Smoking" signs are in place and strictly enforced. Don't allow weeds and debris to build up around the cabinet.

❑ Keep cabinets locked and issue keys only to personnel who need them.

❑ You will find valuable information in the National Fire Code 30, *Flammable and Combustible Liquids*, and AR 420-90, *Fire Protection*.

IF YOU DON'T HAVE  
THESE PUBS, CALL YOUR SAFETY  
OFFICE. THEY CAN FILL YOU IN ON  
ANY LOCAL REGULATIONS.

Cabinet description	NSN 7125-01-084-
Yellow with bright red decal "Flammable-Keep Fire Away" across both doors, 43 inches wide x 44 inches high x 18 inches deep	6954
Yellow, 43 inches wide x 65 inches high x 18 inches deep	6955

ONCE YOU HAVE  
THE CABINET YOU NEED FOR  
STORING FLAMMABLES, FOLLOW  
THESE STEPS TO MAKE SURE  
YOU DO IT SAFELY.

❑ Remove any leaking containers immediately. If there are any spills, clean them up immediately following your unit's HAZMAT SOP.
